Incorrect Assembly

! WARNING

Incorrect assembly can result in large entrapment spaces at these locations which can cause serious injury or death to a child.

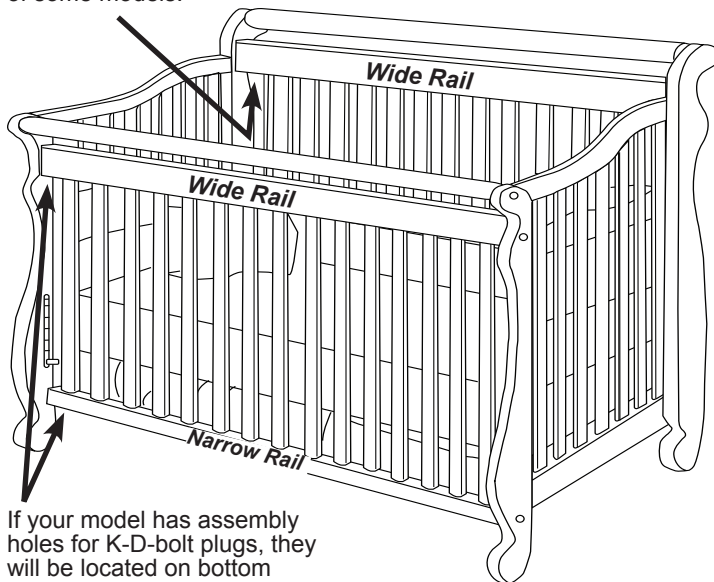

NOTE:
 Assembly holes for K-D bolt plugs will be visible on some models indicating that crib was assembled incorrectly.

TO CORRECT:
 Remove assemblies and rotate so wide rail is at top.

Correct Assembly

If your model has assembly holes for K-D-bolt plugs, they will be located on bottom edge of some models.

If your model has assembly holes for K-D-bolt plugs, they will be located on bottom edge of these rails.

IMPORTANT: For continued use of your crib, it is important that the assemblies have a label applied to help identify the proper orientation. Two of these labels are being provided. Apply one label to each assembly as shown below.
